

PRODUCT DATA SHEET

DESCRIPTION

Blue Chip Chainz is specifically designed to lubricate the chains and sprockets of both on- and off-road bicycles. The wax-based formulation provides maximum film strength and resists throw-off, even at high speeds. Chainz controls oil, grease and grime build up which can form a detrimental grinding paste with conventional chain lubricants.

FEATURES

- High film strength ensures good lubrication properties.
- Excellent adhesive characteristics resist throw-off.
- Minimises dirt and dust build-up to prevent grinding paste effect.
- Good antiwear properties extends chain life.
- Protects against rust and corrosion.

APPLICATION

Blue Chip Chainz is formulated to lubricate the chains and sprockets on all makes of on- and off-road bicycles. It is also suitable for use on other types of chain drives such as those found on motorcycles and agricultural equipment.

Clean chain and sprockets thoroughly with Blue Chip Degreaz and allow to dry. Apply Chainz directly to the entire length of the chain and allow to dry for at least 45 minutes. Wipe off excessive lubricant.

TYPICAL PROPERTIES

PROPERTY	UNITS	TYPICAL
Appearance		Cream coloured liquid
Density at 20°C	Kg/l	0.9
pH		9.4
Brookfield Viscosity at 25°C	cP	450
Flash Point	°C	Non-flammable
Solids Content	Mass %	36

The above figures are typical values and do not constitute a specification.
